"Through verse and song the cast chronicles the hardships and triumphs of gospel's brightest females." "Great Divas come in the form of a train ride across the country with the passengers stopping in the cities where the female evangelists live. At each stop, a story is told about a diva—including the hardships each faced as they climbed their way to stardom. Their pain was real." A blend of history inspiration and dynamic music that pays tribute to the great legends of gospel.
